

Convenient three- and four-channel fixed-speed pumps come complete with Pump Heads, tubing, and drive.

Thermo Scientific Masterflex® I/P Multichannel, Washdown Pumps

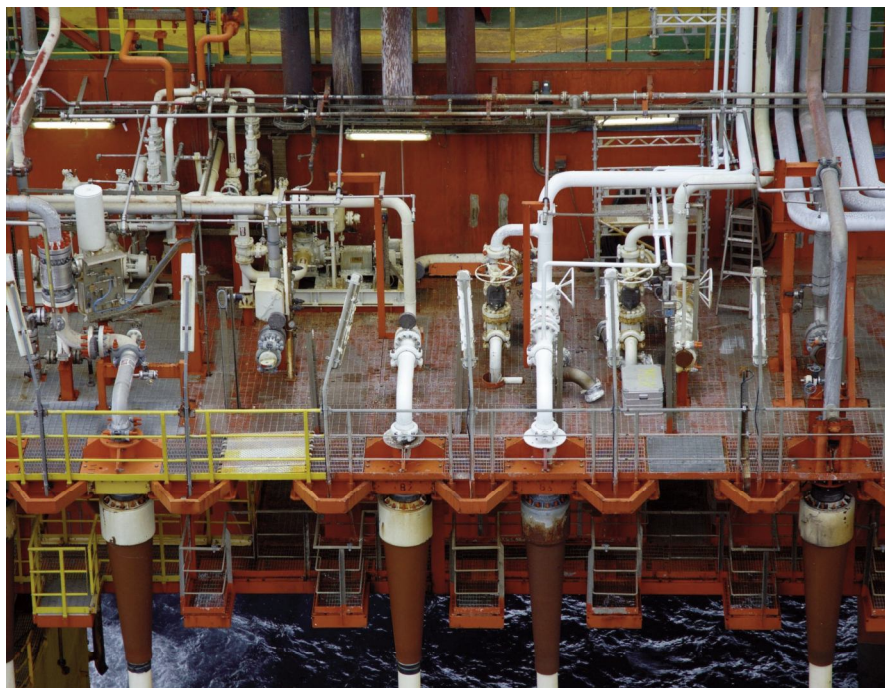

Three-channel washdown pump 950-3613 includes three Easy-Load® pump heads

Four-channel washdown pump 950-3614 includes four Easy-Load® pump heads

Product Benefits

- Use multiple channels to increase your flow rate, or pump different fluids simultaneously from a single drive.
- Accept any Masterflex tubing formulation—configure for a broad range of applications, including pumping multiple lines of inks, chemicals, and pharmaceuticals.
- Fluid never contacts the pump, so clean up is quick and easy — simply replace the tubing!
- Change flow rate by changing tubing size.
- Easy-to-clean, I/P 55-rated housing— simply hose down after use
- Combination on/off/reverse switch— purge before or after pumping; pump fluid in either direction.

Flow rates, LPM (GPM)

Motor rpm	Masterflex I/P Precision Tubing Sizes		
	I/P 26	I/P 73	I/P 82
180	1.1 (0.3)	2.3 (0.6)	3.7 (1.0)
